JOB OBJECTIVE

Dedicated **Data Analyst** with expertise in **Data Analysis and Visualization**. Seeking opportunities to leverage analytical skills and proficiency in **SQL (MySQL), Python (Pandas, NumPy, Seaborn, Matplotlib), and Microsoft Power BI** to drive data-driven decision-making in a dynamic industry.

KNOWLEDGE PURVIEW

- Data Analysis & Interpretation
- Data Visualization & Reporting
- Statistical Analysis
- SQL (MySQL) & Database Management
- Data Cleaning & Transformation
- Object-Oriented Programming (OOP)
- Business Intelligence Tool
- Excel Functions & Reporting

TECHNICAL SKILLS

- **Programming Languages:** Python (Pandas, NumPy, Seaborn, Matplotlib)
- **Databases & SQL:** MySQL, SQL (Complex Queries, JOIN Operations, Indexing, Query Optimization)
- **Data Visualization & BI Tools:** Microsoft Power BI, Matplotlib, Seaborn
- **Data Analysis:** Data Cleaning, Transformation, Aggregation, Statistical Analysis
- **Excel:** Advanced Functions (VLOOKUP, Conditional Formatting, Pivot Tables)
- **Statistical Tools:** Statistical Analysis, Forecasting, Trend Analysis
- **Object-Oriented Programming (OOP):** Python (Modular, Scalable Code)
- **Version Control:** GitHub

ACADEMIC HIGHLIGHTS

- **Master of Science in Mathematics**
Panjab University | Chandigarh, IN | June 2022
- **Bachelors of Science in Mathematics**
Panjab University | Chandigarh, IN | June 2020

PROFESSIONAL SUMMARY

- Showcasing **expertise as a Data Analyst with advanced skills in SQL, Python, and Statistical Analysis**, driving impactful insights for decision-making.
- Excel in utilizing **Microsoft Power BI**, dedicated to continuous professional development, and adept at resolving complex issues through analytical problem-solving approaches
- **Possess a wealth of expertise in analyzing data, interpreting insights, visualizing information, conducting statistical analysis, and utilizing Advanced Excel functions** to drive informed decision-making processes.
- **Demonstrated history of providing valuable insights through the effective utilization of business intelligence tools** and Advanced Excel reporting, contributing significantly to informed decision-making processes.
- **Successfully enhanced database performance, resulting in a 30% reduction** in query execution time, optimizing operational efficiency and data retrieval processes.
- **Proficient in leveraging SQL (MySQL), Python (Pandas, NumPy, Seaborn, Matplotlib), and Microsoft Power BI** to extract actionable insights from complex datasets, driving strategic decision-making processes.
- **Successfully optimized database performance, reducing query execution time by 30%** in the current role as a Data Analyst at Hype Intern.
- **Recognition for exemplary dedication**, sincerity, and strong work ethic from Innobytes Services.

INTERNSHIPS UNDERTAKEN

Data Analyst Virtual Intern – Hype Intern | Punjab, IN | September 2024 – October 2024

- Conducted in-depth analysis of healthcare datasets using Python, identifying key trends and improving the accuracy of reports by 30%.
- Designed and implemented Power BI dashboards to visualize patient outcomes, significantly enhancing data accessibility and decision-making for clinical teams.
- Supported data validation initiatives, reducing discrepancies in patient records by 20%, and ensured compliance with healthcare standards and regulations.

Virtual Intern – Trainity | Punjab, IN | January – March 2024

- Analyzed customer data to refine retention strategies, resulting in a 15% improvement in customer retention.
- Developed and optimized Excel dashboards, increasing reporting efficiency by 30% and facilitating quicker decision-making.
- Processed, cleaned, and transformed data to ensure high accuracy, reducing data entry errors by 20% and streamlining the overall analysis process.

TRAININGS

- **Prompt Engineering for GenAI (4 Weeks)**
- **Data Analytics Course – Trainity (16 Weeks)**

CERTIFICATIONS

- **Intermediate Python Certificates** | HackerRank
- **Basic SQL Certificate** | HackerRank
- **Training Certificate for Prompt Engineering for Generative AI** | Internshala

PROJECTS

Word Guessing Game – Internship ProjectPunjab, IN | August 2024

- Developed an interactive word guessing game in Python, incorporating multiple difficulty levels and themed categories for enhanced user engagement.
- Integrated scoring and hint features to improve the user experience and allow for real-time progress tracking.
- Employed Object-Oriented Programming (OOP) principles to ensure the code was modular, clean, and scalable

PWC Switzerland Power BI Job Simulation – Virtual Client ProjectPunjab, IN | August 2024

- Designed a Power BI dashboard to predict customer churn, Utilizing Key Performance Indicators (KPIs) and metrics to provide actionable insights.
- Identified a 15% gender disparity in executive roles and visualized diversity data to inform recommendations for improvement.
- Conducted a comprehensive root cause analysis of hiring and promotion trends, driving data-driven decision-making to support diversity initiatives.

COVID-19 Data Analysis – Internship ProjectPunjab, IN | July 2024

- Extracted and analyzed COVID-19 data from various sources using SQL JOIN operations to provide a comprehensive overview of the pandemic.
- improved report accuracy by 20% by applying aggregate functions to transform and summarize raw data effectively.
- Optimized database performance by refining queries and implementing indexes, reducing query execution time by 30%.

Coffee Sales Analysis – Personal ProjectPunjab, IN | July 2024

- Analyzed coffee sales data using Pandas to identify a 10% growth trend and seasonal fluctuations across regions.
- Created insightful visualizations using Matplotlib and Seaborn to highlight product demand patterns and regional performance.
- Cleaned and transformed raw data, ensuring 100% accuracy to provide reliable insights for decision-making.

PERSONAL DETAILS

Date of Birth:25th December 1999
Address:Firozpur,152001, Punjab
Languages:English, Hindi & Punjabi
